The first time I heard of this movie was from Vidya Balan. I have heard a lot about the movie since then and I always wanted to watch it. Kunal who is studying engineering is so much into his studies that he takes them over everything and does not bother about anything else. One day he comes across Sonia. She happens to be a rich girl from an educated family. He gets impressed by her and a love story starts between the two. The rest of the movie revolves around them. Even though I have not seen any other movies by this director or any of his previous ones, I can say that his movies are really good. They are really entertaining and contain many nice to watch scenes. The one thing I really like about his movies is that the female characters are different from each other. So, I am hoping that in the sequel, he won't repeat himself and will try to make his films different from each other. With a story and script by Punit Malhotra and music by Sajid-Wajid, Babli 2 involves Kunal Kapoor and Sonia Tomar as lead protagonists. The film revolves around the same storyline as the prequel film Bunty Aur Babli and their love story. A fantastic story with simple plot, is a project idea that Bunty Aur Babli director and screenwriter, Punit Malhotra has already thought of. That's why the prequel of the movie Bunty Aur Babli is quite remarkable and has some genuinely interesting things to do. The storytelling is very good and effective. The characters are great and convincing. The comedy by the director and actors are really impressive. The beginning is a little bit slow but the concept of the film is really amazing and engaging. The script and direction are impeccable and I am quite sure that this film has enough potential to be a super hit. In this particular film, all the characters are on the young side, so I hope the plot doesn't turn dull later. The cinematography is excellent and the pace of the film is perfect. The songs are good, but some are great and the soundtrack is really unique. The background score is quite impressive and the impact of the songs is good. The dialogues and expressions are excellent and all the characters are well-rounded. Babli 2 First look Kunal is a guy who will not bother about anything and just remains focused on his studies. He is a geeky guy and will try to impress 82157476af
